Microsoft365

PROFESSIONAL EXPERIENCE

Interpreter , Cantalk

October 2024 - January 2025

- Provided real-time call-based interpretation services.
- Fluent in Arabic, French, and English.
- Assisting clients in bridging communication gaps across diverse industries, including healthcare, legal, and customer service.

Graphic Designer , Fiverr

2018 – August 2022

- Specializing in creating custom designs for T-shirts, flyers, posters, logos, catalogs, menus, book covers, and banners.
- Focuses on understanding client needs and translating their vision into visually appealing designs.
- Strong eye for detail and creativity.

EDUCATION

Computer Programming

September 2024 - Present

Algonquin College, Ottawa, Canada

- Post-secondary Diploma
- A hands-on program focused on full-stack development, database management, and software design using modern programming languages and tools.

PROJECTS

Database Management System for High School (Algonquin college)

December 2024

- Designed and implemented a relational database system to manage student records.
- Utilized SQL for creating tables, defining relationships, and writing complex queries.
- Developed dynamic views to display students' profiles, GPA, and post-graduation plans.

NABILA M.

SOFTWARE DEVELOPER

Flappy Bird Game (Personal Project)

January 2025

- Developed a 2D arcade game, built in Unity with C#.
- Inspired by Flappy Bird, it features real-time physics, animated sprites, dynamic obstacles, and scoring.
- Through this project, I'm expanding my skills in Unity scripting, object management, and C# game programming.

Arise Fragrance (Personal Project)

March 2025

- Arise is a responsive full-stack e-commerce site built for selling luxury fragrances.
- Combines user login and account management with dynamic search, product filtering, cart, and secure checkout, delivering a fast, elegant, and user-centered shopping experience across all devices.
- Toolkit: HTML - CSS - JavaScript - PHP - MySQL

Animated Portfolio (Personal Project)

April 2025

- A Modern and professional website built with HTML, CSS, JavaScript, and Node.js.
- It features smooth animations, a fully responsive design across all devices, and an interactive 3D robot model that adds a unique visual element.
- This project highlights my skills in both front-end and back-end development, demonstrating my ability to create dynamic, modern web applications

CERTIFICATIONS

- Responsive Web design , FreeCodeCamp
- JavaScript Algorithm & Data structure , FreeCodeCamp
- IELTS English Test (6 Overall)
